

Bell and Bullock - Static Time Machine Show - Time Trouble

Promotional Copy:

Join our two bonkers boffins, Warp and Weft on a voyage through deepest history. Get ready to laugh, marvel and have your mind expanded as you meet whip cracking Romans, morris dancing Vikings and a flying Siberian tiger. Using a fantastic fusion of sensational circus skills and visually compelling comedy, this family show is full of absurdly funny nonsensemongering and toothsome tomfoolery.

Show Day contact number: 07910 693890

Set Building and Preparation: We will arrive at least 1.5 hours before our first performance.

Personel: Two Performers, both will ride in the Time Machine.

Technical Specifications:

- ◆ The Time Machine is based on a mobility scooter and has a top speed of 4mph. It can be driven on flat surfaces, paved or grass, but not steps, big cobbles or very steep inclines.
- ◆ The Machine is **2m long, 1.14m wide and 1.8m high.** and will fit through a regular double doorway.
- ◆ The machine contains the sound system and props for the act and is self contained for power. For a rolling programme we can set up and be ready to start a show or clear the area after a show in 5 mins.

Our Requirements:

- ◆ A minimum performance area of 6 x 4 meters in a quiet, focused area, away from noisy generators or sound systems
- ◆ A safe place to store the machine between shows. This can be outdoors as we have waterproof tarpaulin covers.
- ◆ For multiple day bookings having a place to store the machine overnight is greatly appreciated, where possible, as it saves us from having to de-rig and build the set again the next day.
- ◆ Secure changing facilities (we can use our van if needed) with access to backstage toilets
- ◆ Parking for our van (preferably close to the performance area). It is a Blue Peugeot Boxer Registration: **FH66 VJC.** Dimensions: **6.4m long, 2.5m wide and 2.5m high.**
